2008: Worldwide financial crisis starts in the United States.  
Coordinated response from European leaders:

- **Commitment to the euro and to financial stability**
- **New crisis management tools and reforms of rules:**
  - European Stability Mechanism: fund to help countries in extraordinary economic difficulties
  - New laws for stability of banks
  - Banking Union: EU-wide supervision of banks and a mechanism to close down failing banks
- **Better economic governance:**
  - European Semester: annual procedure to coordinate public budgets
  - Euro+ pact, 'Fiscal compact treaty': mutual commitments to sound public finances

In 2015, the European Commission of President Jean-Claude Juncker focuses on:

1. The investment plan: a new boost for jobs, growth and investment
2. A connected digital single market
3. A resilient energy union with a forward-looking climate change policy
4. A deeper and fairer internal market with stronger industries
5. A deeper and fairer economic and monetary union
6. A reasonable and balanced free trade agreement with the United States
7. An area of justice and fundamental rights based on mutual trust
8. A new policy on migration
9. Europe as a stronger global actor

- Investments are made in viable business projects, for example in digital and energy infrastructure, transport, small businesses, green projects and innovation
- Multiplier effect: public money will trigger private investors to follow suit, with up to € 315 billion
- Could create 1.3 million new jobs over three years

## The EU's response to the financial crisis:

- **Rulebook:**

New laws to ensure that banks have adequate capital and better risk control

- **Supervision:**

The European Central Bank supervises the +/- 130 of the most important banks

National bank supervisors work closely together

- **Resolution:**

A Europe-wide Single Resolution Board can decide to wind down a failing bank

This is backed by a fund that banks themselves pay into, thus ensuring that taxpayers do not have to pick up the bill.
