How to create
business value from
digital technology?

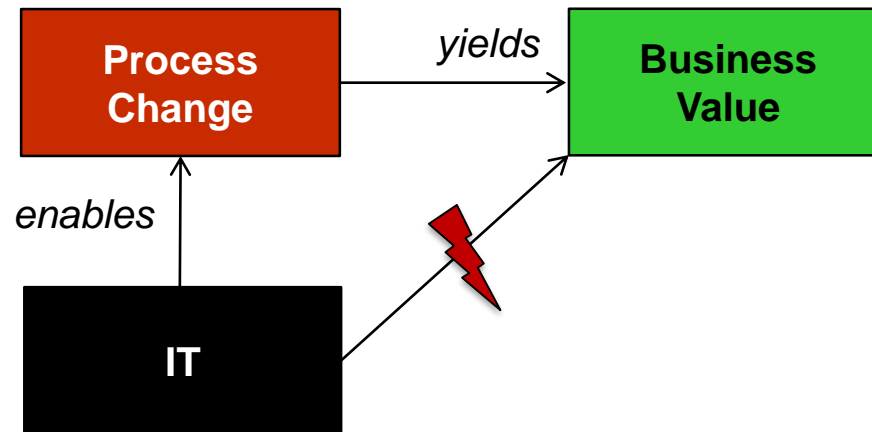

Digital Value Creation

Digital Value Creation

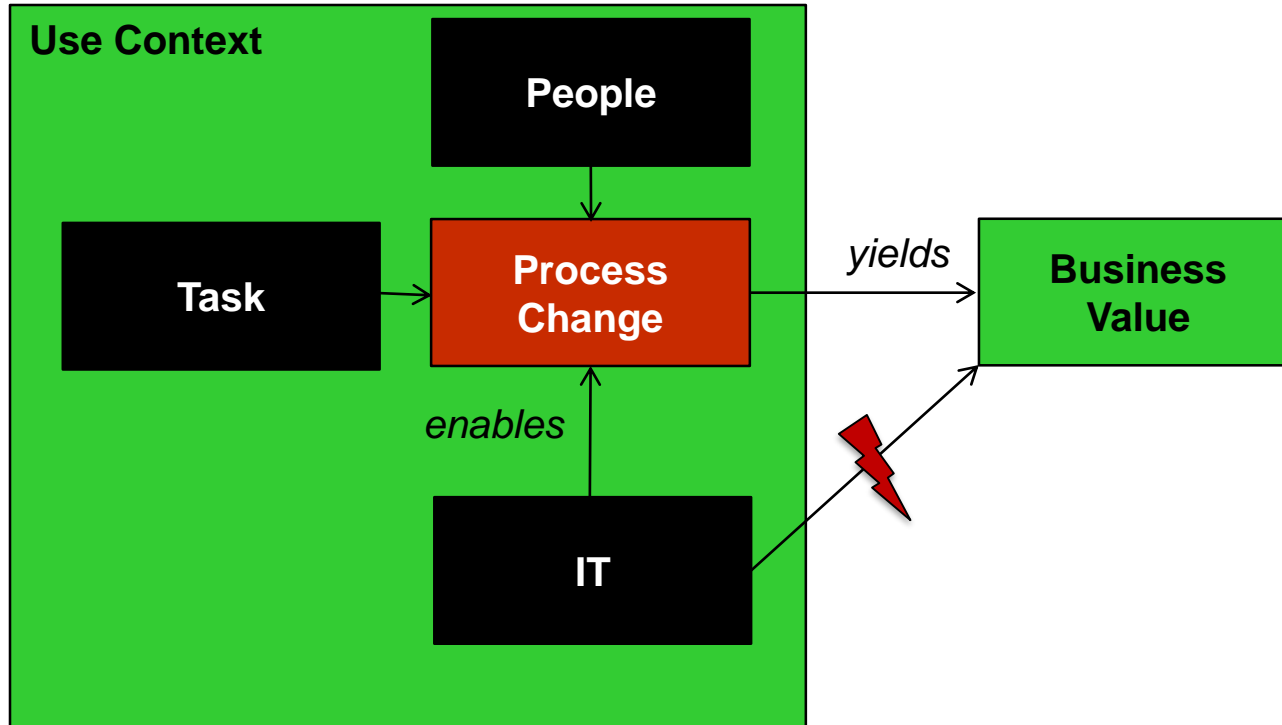

Digital Value Creation

Digital Value Creation

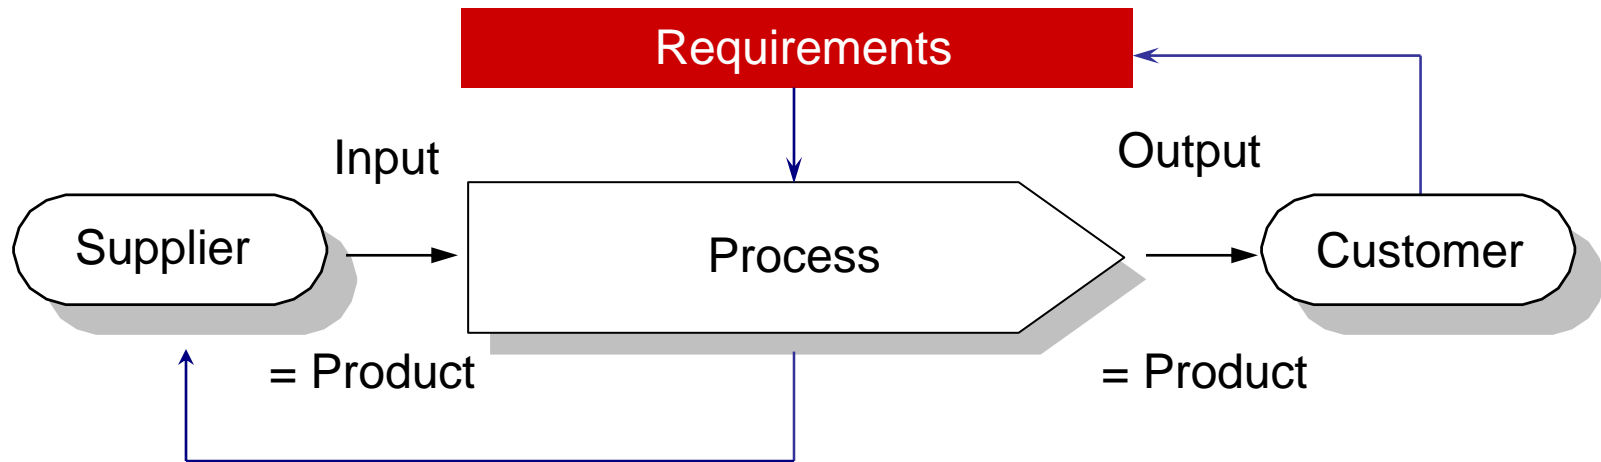

Digital Value Creation

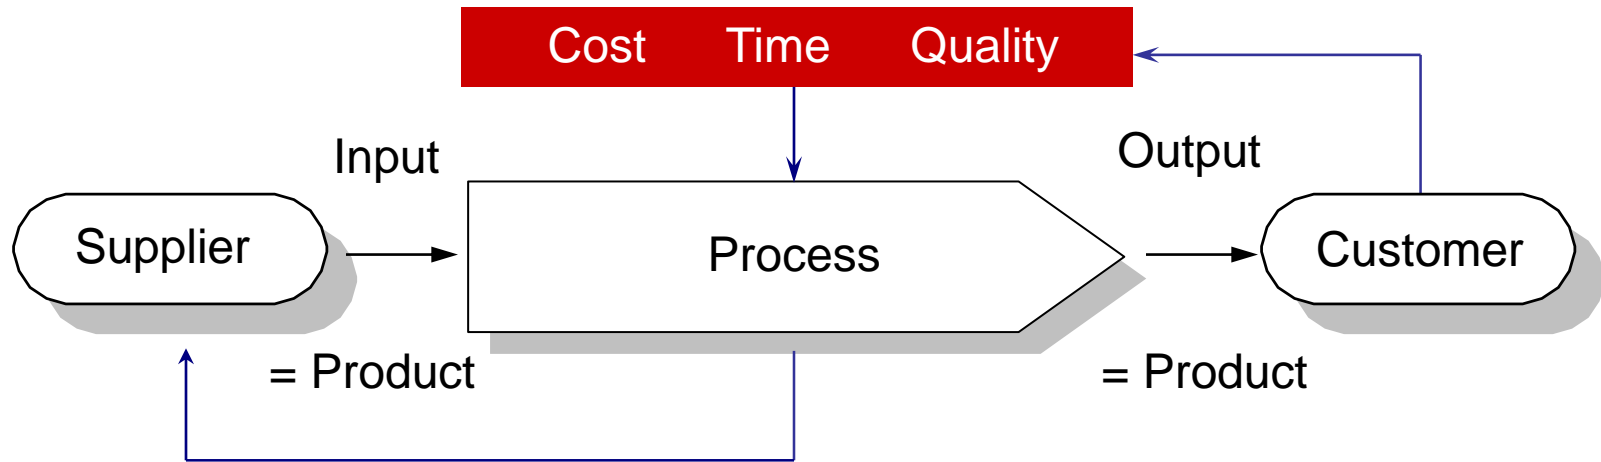

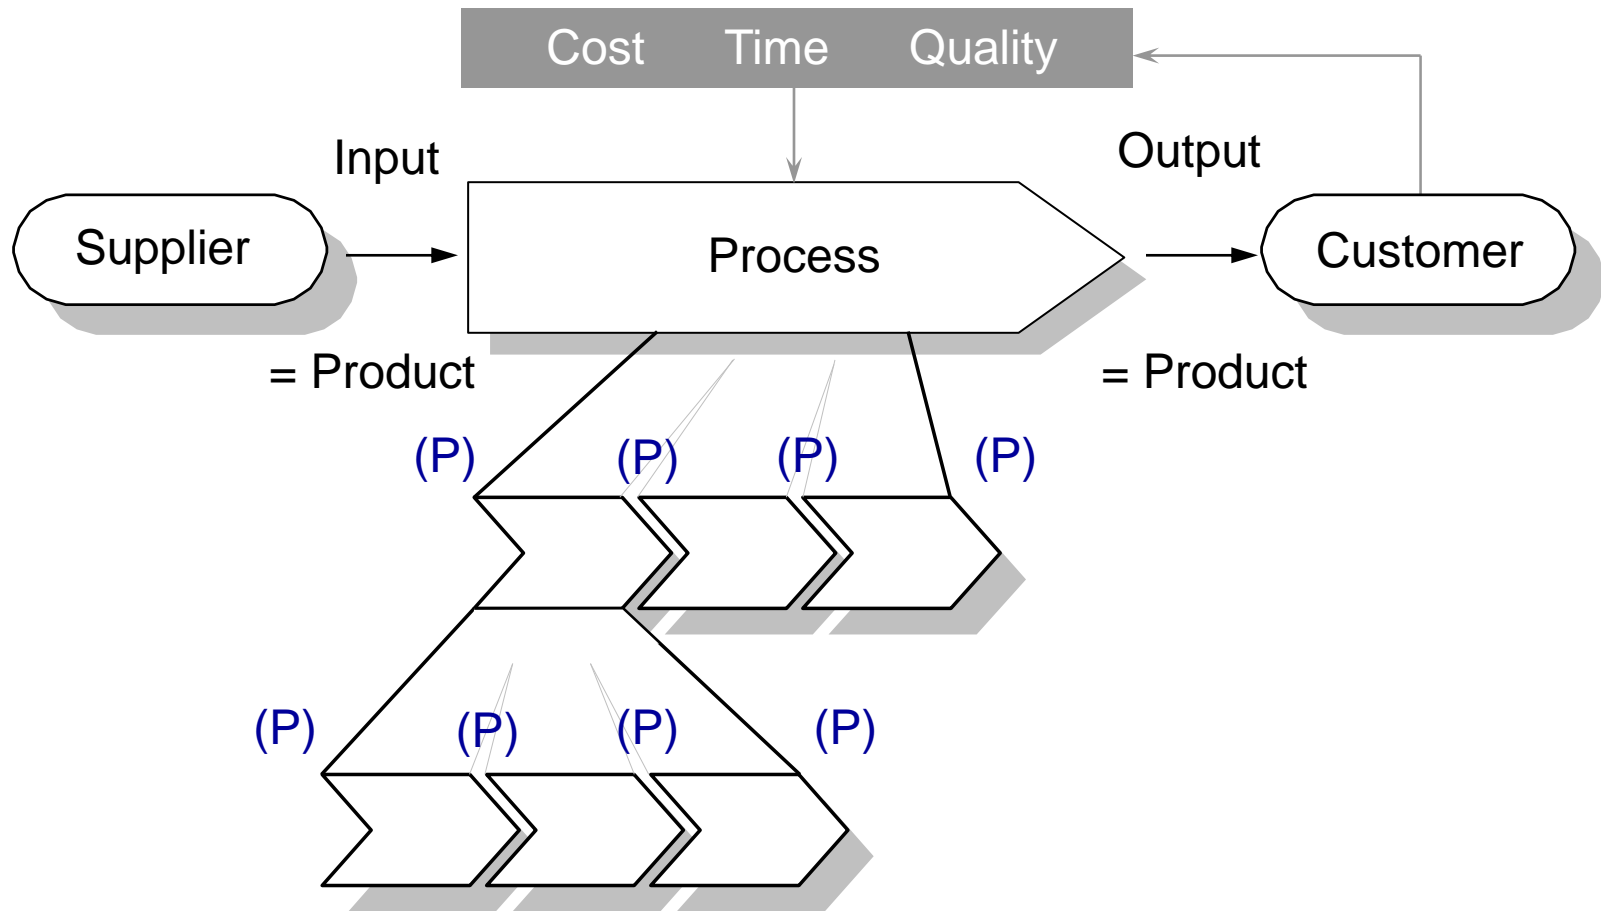

What is a process?

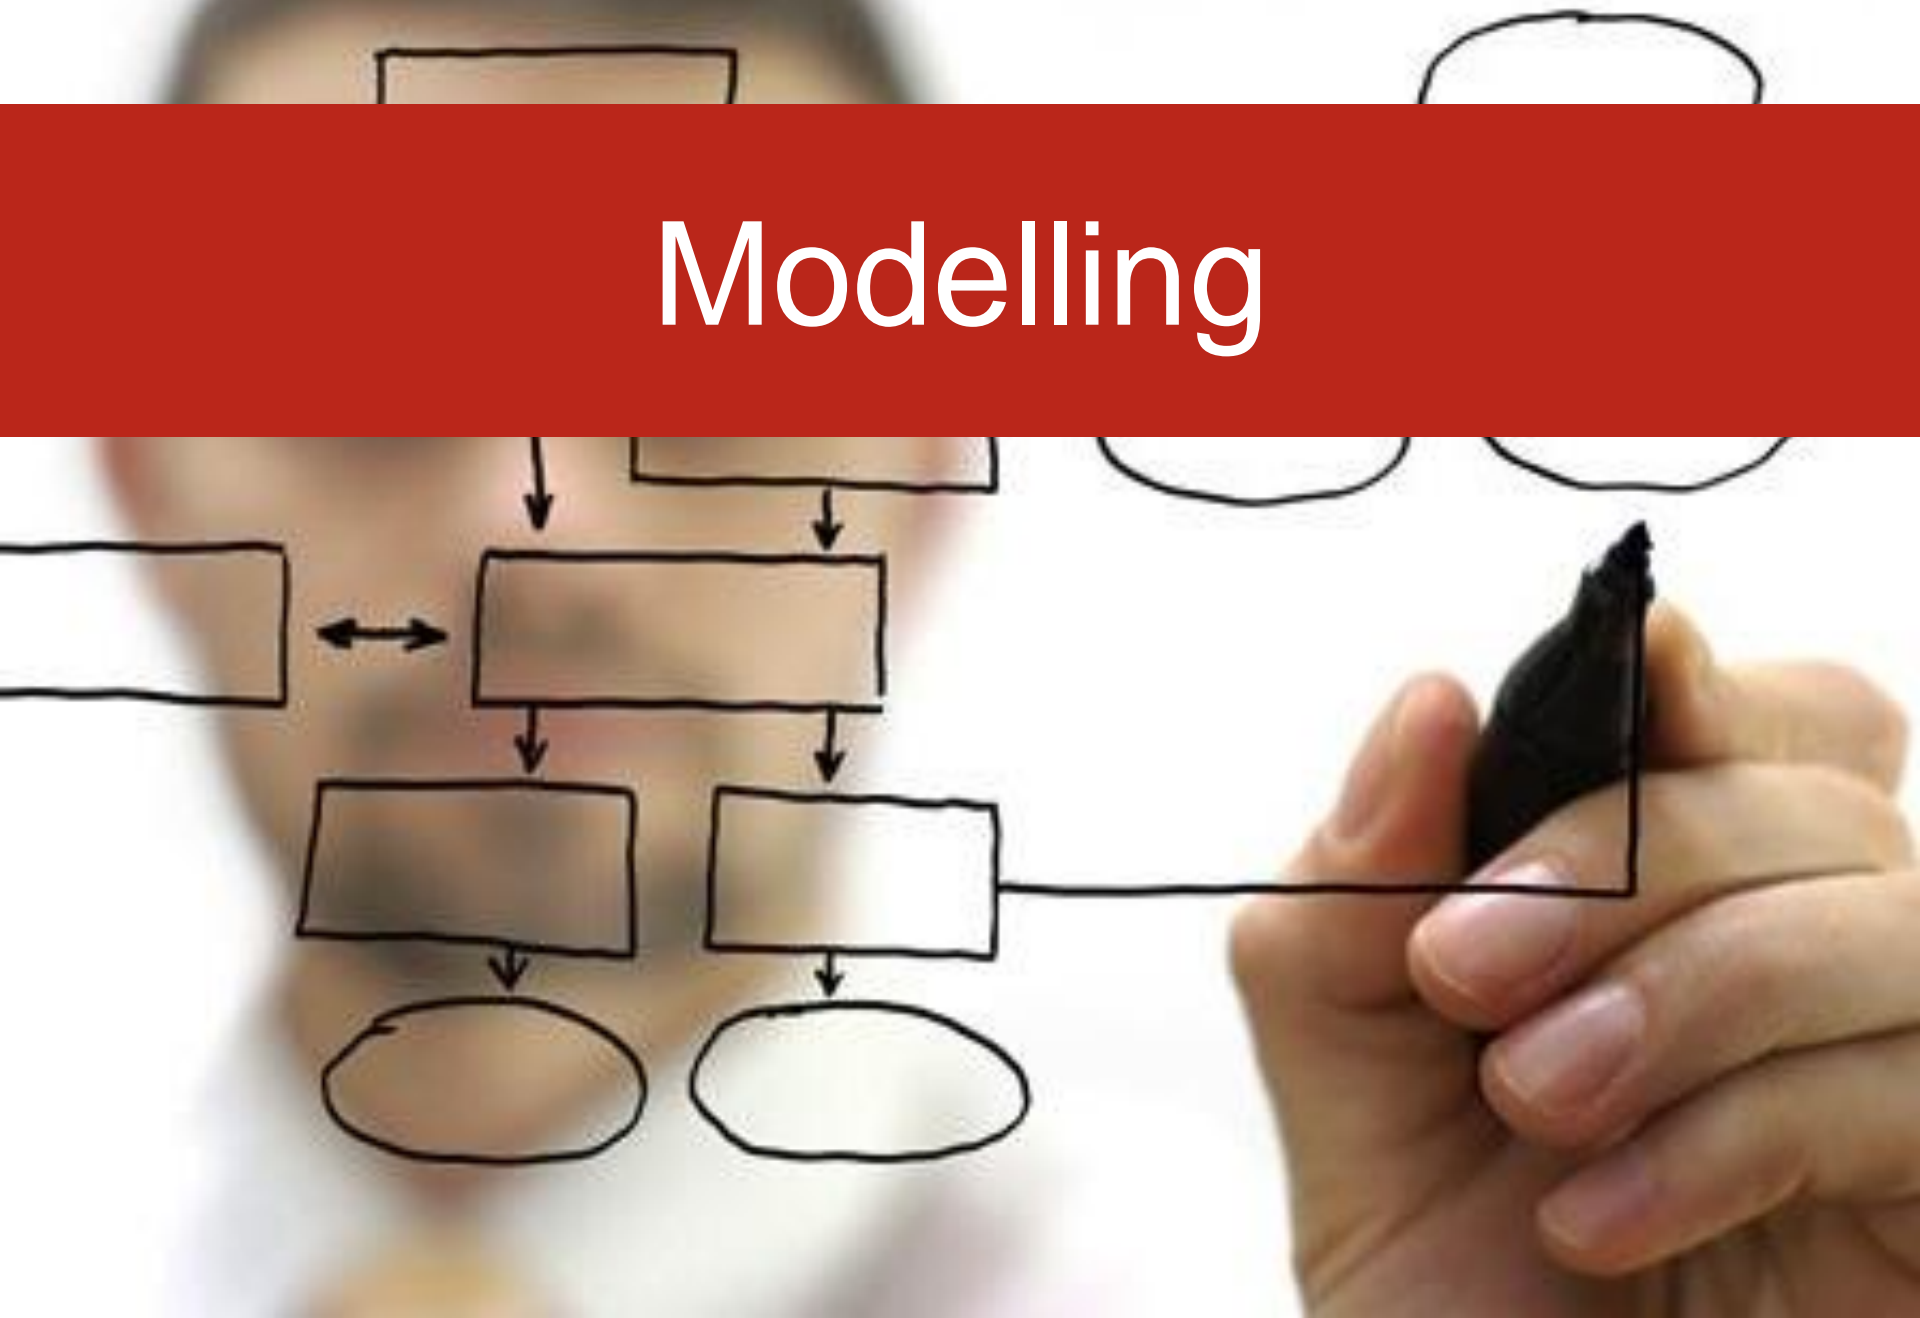

What is BPM?

Modelling

Information Technology

Performance Measurement

Culture

A nighttime cityscape with several illuminated buildings, including a prominent one with a red logo. The sky is dark blue.

BPM should

deliver

Business Value

A long-exposure photograph of a highway interchange at night, showing colorful light trails from cars. The roads are illuminated with streetlights.

through driving business

A nighttime cityscape with several skyscrapers illuminated and fireworks exploding from their tops. The scene is vibrant with colors from the fireworks and city lights. The water in the foreground reflects the lights.

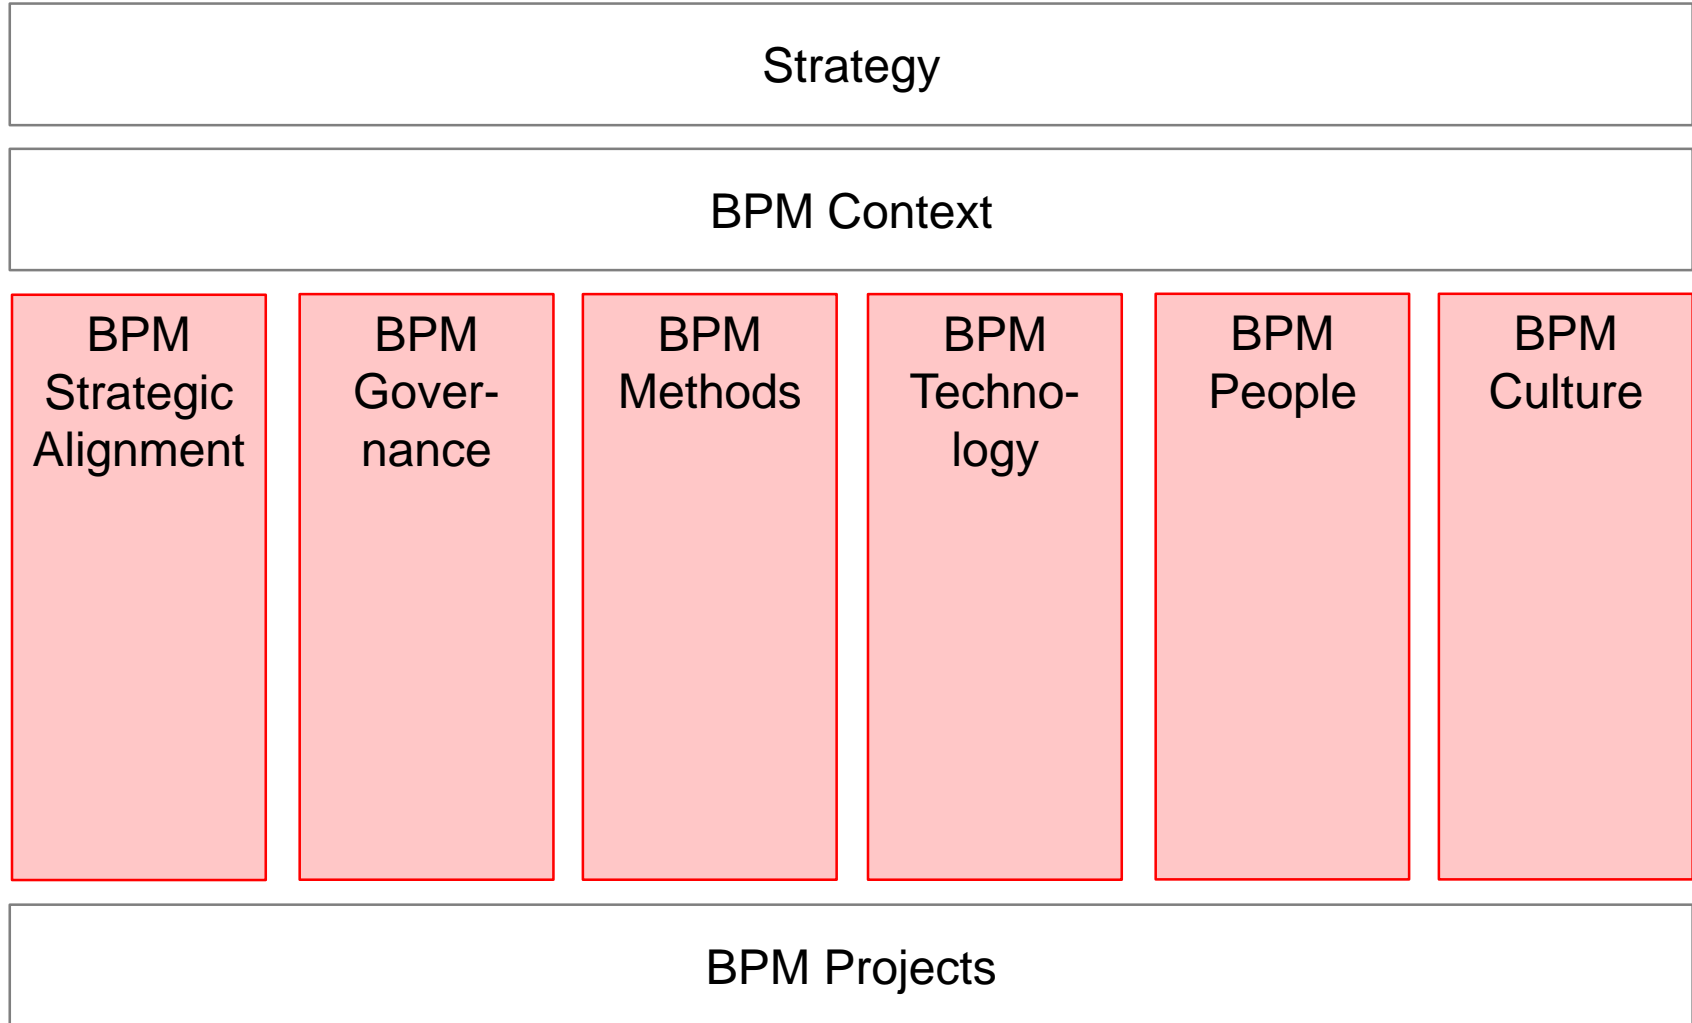

BPM should

play the

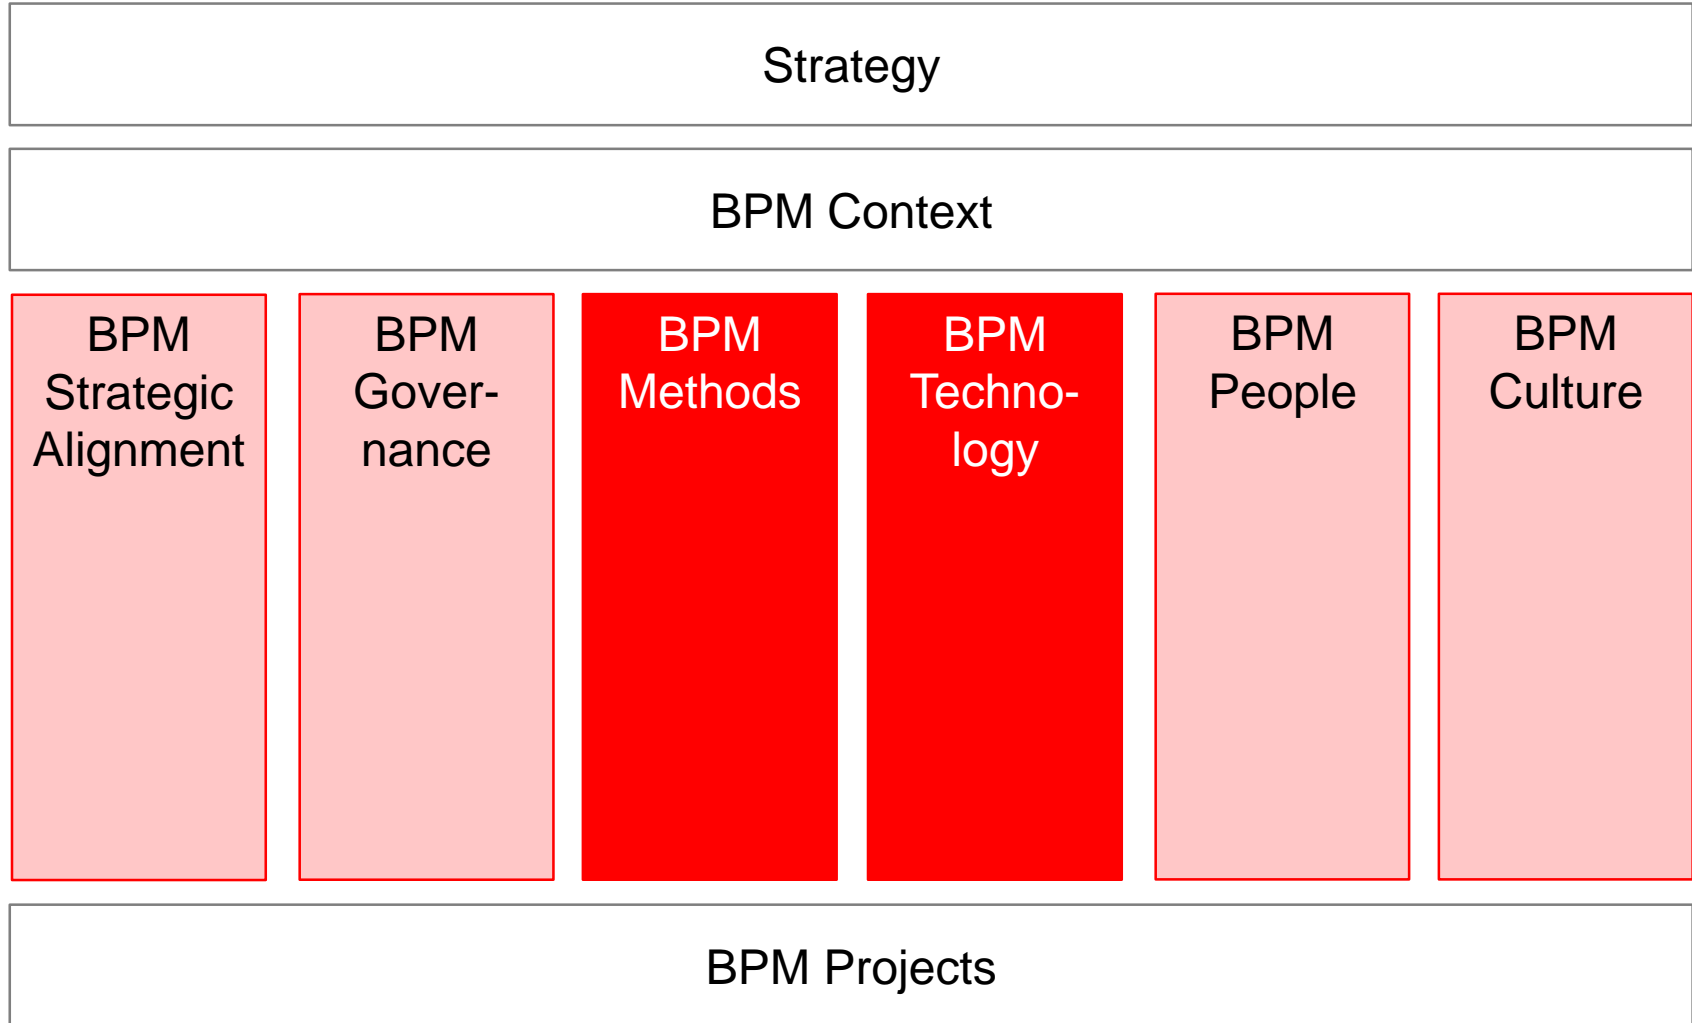

Symphony of ...

**modeling, technology, culture,
measurement, and more.**

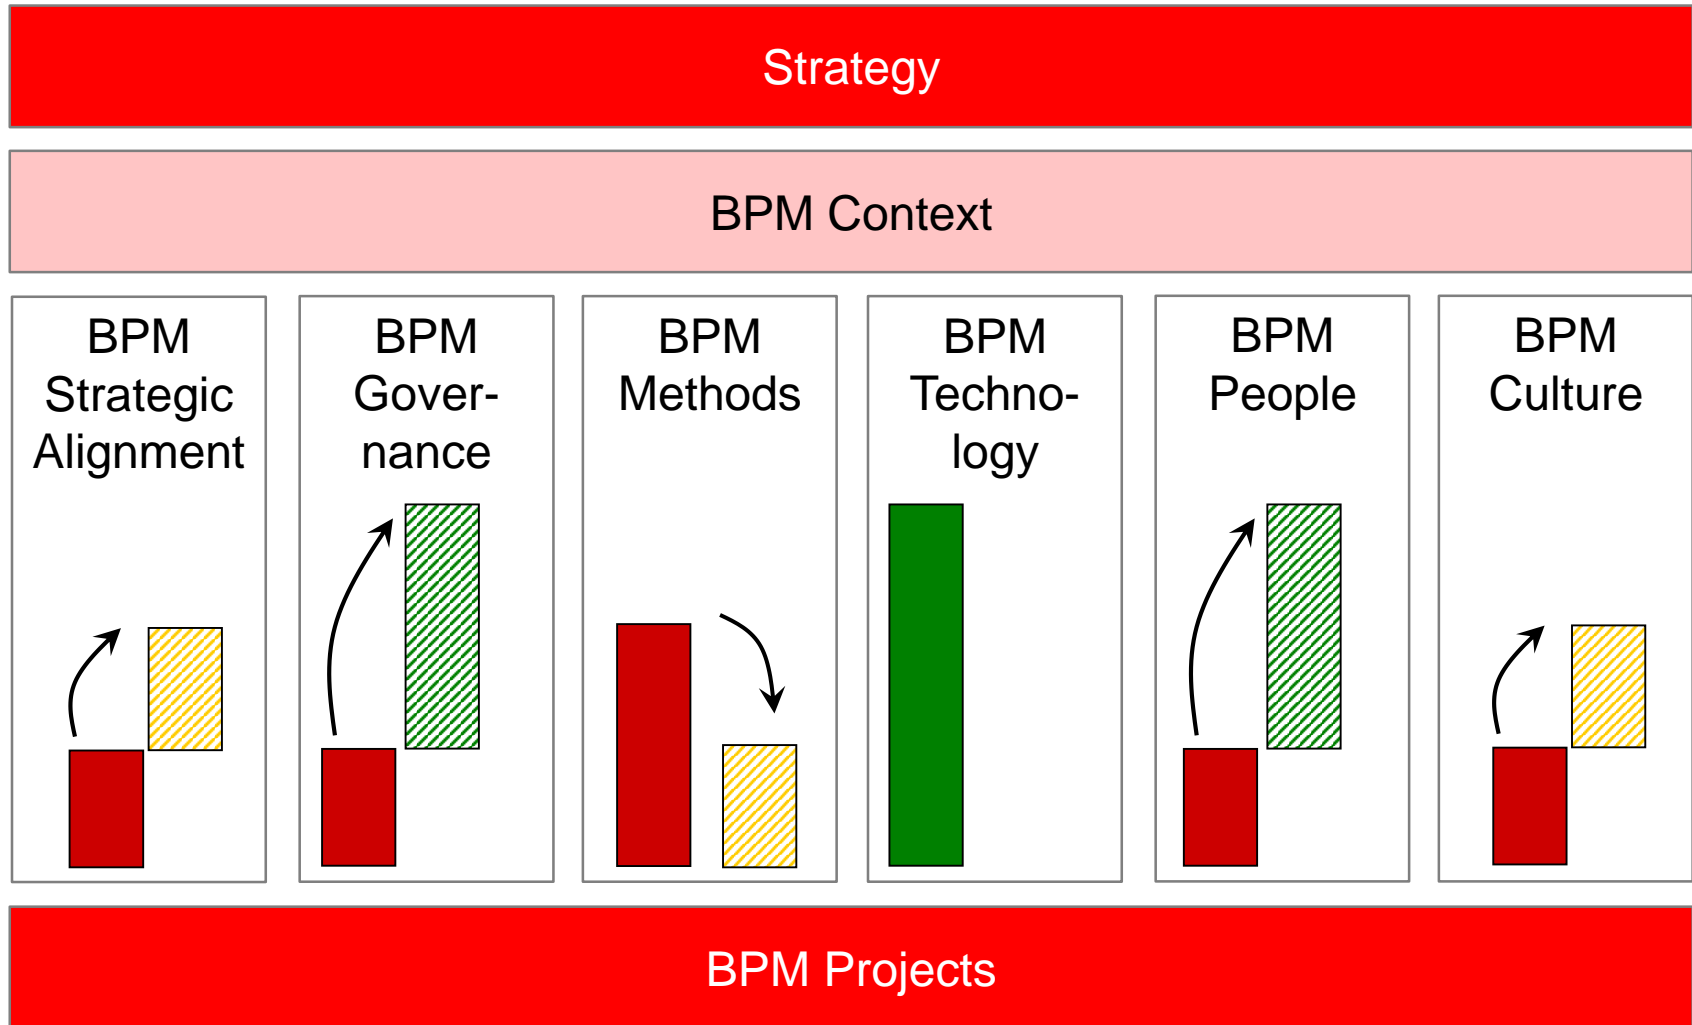

BPM Framework

TOPIC MODELING

Discover topics running through large collections of unstructured texts in a completely automated, data-driven manner.

SENTIMENT ANALYSIS

Quantify the positive and negative emotions expressed in texts. Observe the temporal dynamics of the emotions.

NATURAL LANGUAGE PRE-PROCESSING

Clean noisy texts through stopword removal, n-gram analysis, parts-of-speech tagging, stemming, and lemmatization.

VISUALIZATION

Visualize topics and sentiments in intuitive ways. Observe the emergence of new topics and apply drill down and filter options.

API AND WIDGETS

Manage your analysis via APIs and embed the results in the frontend tool of your choice with our selection of widgets.
