INTERNATIONAL SCIENTIFIC AND PRACTICAL CONFERENCE: "THE FUTURE OF MONETARY CIRCULATION"

November 26, 2025
02.00 PM – 04.00 PM
Moscow, Maly Zlatoustinsky Lane, 7/1, Room 411

CONFERENCE OVERVIEW:

Monetary circulation is a crucial component of the economic system, and its impact on the economy largely depends on its structure. A fairly stable trend over the past two decades has been the structural dynamics of the money supply, manifested in a slight decrease in the share of cash.

However, despite the emergence of new payment instruments in the context of the rapid development of digitalization of payment turnover, the demand for cash remains. The resulting "cash paradox" is of scientific and practical interest, requiring clarification of the causes, consequences, and assessment of possible macroeconomic effects against the backdrop of ongoing changes, taking into account the past and future of cash circulation. These and other relevant issues in the context of the prospects for cash circulation will be discussed.

MODERATOR:

Marina A. Abramova, Head of the Department of Banking and Monetary Regulation, Faculty of Finance, Financial University.

DISCUSSION TOPICS:

1. National currency as a symbol of statehood and an element of the national "cultural code."
2. Global turbulence of the first quarter of the 21st century and cash circulation.
3. Cash and digital ruble: what changes in cash circulation with the mass introduction of the digital ruble?
4. Cash circulation and macroeconomic indicators: mechanism and consequences of influence.

SPEAKERS:

Sergey V. Anureev, Professor of the Department of Public Finance, Faculty of Finance, Financial University;

Marianna T. Belova, Associate Professor, Department of Banking and Monetary Regulation, Faculty of Finance, Financial University;

Sergey V. Vereikin, President — Chairman of the Board of the ROSINKAS Association;

Alexey Yu. Gorislavets, CEO of Initiative Investment Company LLC;

FINTECH IN THE PUBLIC SECTOR AND FINANCIAL INSTITUTIONS: "TRENDS, PLANS, AND CHALLENGES"

November 26, 2025
02.00 PM – 04.30 PM
Moscow, Maly Zlatoustinsky Lane, 7/1, Room 218

CONFERENCE OVERVIEW:

The transition to digital government services is recognized as one of the Russian Federation's national development goals through 2036. The strategic directions for digital transformation are shaped by technological trends and solutions in artificial intelligence, the digital maturity of public administration, increased investment in domestic IT solutions, the digitalization of the budgetary process, the creation of digital solutions for monitoring national projects and government programs, the application of artificial intelligence for price monitoring, detection of cartel agreements, and verification of contract execution, the formation of mechanisms for converting state assets into digital form, and the development of digital payment services. Digital transformation is occurring across all financial market institutions, including banks, insurance and management companies, non-bank professional securities market participants, and exchanges. The primary goal of the event is to create an expert platform for discussing the theoretical and practical issues of implementing fintech projects in the public and private financial sectors. This event will serve as a venue for exchanging experiences between representatives of government bodies, financial institutions, innovative technology companies, and the academic community who are interested in fintech development in the Russian Federation.

MODERATOR:

Elena A. Fedchenko, Deputy Head of the Department of Financial Control and Treasury Affairs, Faculty of Finance, Financial University.

DISCUSSION TOPICS:

1. Treasury as a quasi-bank: transitioning to comprehensive digitalization of payment processes.
2. The application of AI for managing financial flows in treasuries and the financial market: opportunities and limitations.

3. Digital transformation of accounting, control, information, and transactional systems of the federal treasury and within treasury divisions of companies: challenges, solutions, and strategies.
4. Platform economy: development of marketplaces and ecosystem partnerships, moving towards hyperconnectivity and seamless integration.

SPEAKERS:

Natalia E. Annenskaya, Associate Professor, Department of Financial Markets and Financial Engineering, Faculty of Finance, Financial University;

Darya A. Belousova, Deputy Director of the Department of Information Technology in Governmental and Municipal Finance Management and Information Support of Budgeting, Ministry of Finance of the Russian Federation;

INTERNATIONAL SCIENTIFIC AND PRACTICAL CONFERENCE: "TRANSFORMATION OF THE RUSSIAN FINANCIAL SYSTEM: A GLIMPSE INTO THE FUTURE"

November 26, 2025

11.00 AM – 01.00 PM

Moscow, Maly Zlatoustinsky Lane, 7/1, Assembly Hall

CONFERENCE OVERVIEW:

The imperatives for the development of the Russian financial system in the future are based on the ability to withstand external threats, the need to develop and implement innovative financial policies, support the stability and sustainability of the national financial system, and ensure high rates of economic growth. As a conceptual approach to macroeconomic planning and economic regulation in modern conditions, the financial stability of the economic system requires innovative solutions in fiscal, monetary, and exchange rate policies, creating favorable conditions for increasing national savings and transforming them into investments for technological breakthroughs, import substitution, and improvement of public welfare. The relevance of studying these issues is linked to geopolitical tensions and the need to reduce Russia's dependence on foreign financial markets and institutions, especially those that are unfriendly. The goal of this event is to seek answers to these questions, which are designed to ensure national security, the implementation of long-term priorities of socio-economic development, and enhancing the competitiveness of the Russian economy.

MODERATOR:

Valeria V. Litvin, Director of the Institute for Financial Research, Faculty of Finance, Financial University.

DISCUSSION TOPICS:

1. Financial stability and financial sustainability at the macro level: debatable theoretical issues
2. Risks to the Russian financial system in the new geopolitical reality and ways to overcome them
3. Ways to strengthen financial stability and sustainability in Russia in the face of external challenges
4. The impact of digitalization on the development of the Russian financial system

"INCREASING RUSSIA'S CONTRIBUTION TO THE DEVELOPMENT OF INTERNATIONAL TOURISM: FINANCIAL AND INVESTMENT INSTRUMENTS"

November 26, 2025

02.00 PM – 04.00 PM

Moscow, Kibalchicha Street, 1, Room 201

CONFERENCE OVERVIEW:

The strategic goal set by the country's leadership to double the contribution of the tourism and hospitality sector to the Russian economy over the next five years requires a comprehensive and forward-thinking approach. Achieving this ambitious objective is an integral part of shaping "Russia: Concept of the Future," positioning the country as a competitive and influential player in the global tourism market. The panel discussion will critically examine the financial and investment tools necessary for this transformation. The analysis will focus on overcoming existing barriers, leveraging digital technologies, and developing human capital. By synthesizing leading international practices with domestic potential, the discussion panel aims to develop a cohesive strategy for optimizing investment flows and enhancing the financial management of tourism projects. This conversation will contribute to envisioning a future where Russia's economic position is significantly strengthened by a robust, modern, and internationally integrated tourism industry.

MODERATORS:

"PLATFORM ECONOMY: POTENTIAL, RISKS, AND DEVELOPMENT TRENDS"

November 26, 2025

12:00 AM – 01:30 PM

Moscow, Leningradsky Prospekt, 51/1, Room 1006

CONFERENCE OVERVIEW:

The platform economy is a new business model that, on one hand, accelerates and simplifies interactions among participants, but on the other hand, increases security risks and may negatively impact competition. Therefore, a key task for business and the scientific community is to develop and leverage the advantages of the platform economy, assess its impact on the labor market and the financial-banking sector. At the same time, issues such as the problem of dominance in certain sectors, storage, systematization, and use of vast amounts of data on users and transactions, and how operations and user incomes should be taxed need to be discussed.

Defining rules for the development and regulation of the platform economy is a pressing issue that requires answers today.

MODERATORS:

Eugenia Chernitskaya, Chairperson of the Association of E-Commerce Market Participants (AUREK) and the Federal Society of Network Trade (FOST), author and host of popular media projects "Personal Account" and "Good News of E-Commerce";

Olga Zhiltsova, PhD in Economics, Associate Professor, Department of Logistics, Financial University, Chief Editor of the journal "Marketing and Logistics".

DISCUSSION TOPICS:

1. Challenges in forming the platform economy and its opportunities for ensuring sustainable business development.
2. Evaluation of the potential of Russian platforms in logistics solutions for future expansion of international trade relations.
3. Trends in e-commerce development: accelerating digitalization processes and striving for sustainability and environmental friendliness.

4. Regulation mechanisms for the platform economy to balance the interests of the state, business, and consumers with a focus on a sustainable future.
5. Features of platform employment and adaptation of specialists to new market conditions.

SPEAKERS:

"CONCEPTS FOR A SUSTAINABLE FUTURE FOR RUSSIA: ECOLOGY, PERSONNEL, THE STATE"

November 26, 2025

11.00 AM – 13.00 PM

Moscow, Kibalchicha Street, 1, Conference Hall

CONFERENCE OVERVIEW:

This panel discussion focuses on sharing experiences and best practices in the interaction between the state and business, aimed at fostering a sustainable future for Russia. International practices of sustainable development in other countries are based on ESG principles. In Russia, the development of these principles occurs within the framework of ESG ratings, a methodology where the "ecology-social development-governance" paradigm transforms into the concept of "ecology-personnel-state".

Recognizing the need for further development of ESG ratings, the panel discussion will explore new approaches to the methodology and assessment of corporate social responsibility both in Russia and in Islamic countries. It will also present the best business practices aimed at ecological and personnel development.

MODERATORS:

Ekaterina R. Bezsmertnaya, Dean of the Faculty of Economics and Business, Financial University.

Tamara I. Mordasova, General Director of System Consulting LLC.

DISCUSSION TOPICS:

1. Building a sustainable future based on new approaches to the methodology and assessment of responsible business conduct.
2. The practice of implementing actual infrastructure projects and an assessment of their impact on the future of Russia.
3. Islamic countries: the specifics of ethical business practices and corporate social responsibility, and adapting them to Russian conditions.

4. Best business practices aimed at ecological and personnel development as a foundation for a sustainable future for Russia.

SPEAKERS:

Vitaly V. Maksimov, Chairman of the Board of Directors of TRANSPROJECT Group JSC.

Tamara I. Mordasova, General Director of System Consulting LLC.

Rasul Salim Masir Al-Maliki, Deputy Director of the Tourism Department, Shiraz University (Islamic Republic of Iran).

Tatiana V. Kharitonova, Deputy Dean of the Faculty of Economics and Business, Associate Professor of the Department of Industry Markets, Faculty of Economics and Business, for Academic and Methodological Work, Financial University.

November 26, 2025
02.00 PM – 04.00 PM

Moscow, Verkhnyaya Maslovka Street, 15, Room 409

CONFERENCE OVERVIEW:

The digital era is dictating a new set of rules: old management models have exhausted themselves. Today, the search for and adaptation of promising tools that will allow Russian companies not just to survive but to grow confidently, find new points of growth, and create competitive products are more relevant than ever. The future of the Russian economy depends on a large-scale transformation that affects a whole range of issues, including ensuring technological sovereignty and increasing labor productivity. In a digital economy, it is important to seek new points of economic growth and develop promising management tools for the innovative development of Russian business. Therefore, it is also important to review the best Russian and foreign practices for adapting business to new conditions.

MODERATOR:

Dmitry A. Artemenko, Professor of the Department of General and Project Management, Faculty of "Higher School of Management", Financial University.

DISCUSSION TOPICS:

1. How will the management of the future differ from modern management approaches?

"DIGITAL TRANSFORMATION OF STATE AND MUNICIPAL MANAGEMENT AND THE SOCIAL SPHERE"

November 26, 2025
10.00 AM – 12.00 AM

Moscow, Verkhnyaya Maslovka Street, 15, Room 431

CONFERENCE OVERVIEW:

The digital transformation of state and municipal management and the social sphere is one of the national goals for the development of the Russian Federation for the period up to 2030 and into the future up to 2036, enshrined in the Decree "On the national goals for the development of the Russian Federation for the period up to 2030 and into the future up to 2036." Achieving "digital maturity" in state and municipal management, key sectors of the economy, and the social sphere by 2030 is the key to achieving the country's technological sovereignty.

The digital transformation of state and municipal management, the economy, and the social sphere implies profound and comprehensive changes in production and social processes associated with replacing analog systems with digital technologies. The subject of the discussion is not simply the fact of changes in state governance and social development during the digital transformation, but the justification for directions, ethical boundaries, and ultimate goals. The main dividing line runs between the technocratic and humanistic paradigms.

MODERATORS:

Olga V. Panina, Head of the Department of State and Municipal Management, Faculty of Higher School of Management, Financial University;

Andrey N. Pudov, State Secretary — Deputy Minister of Labor and Social Protection of the Russian Federation, Deputy Head of the Basic Department of the Ministry of Labor of Russia "Modern Social Policy," Faculty of "Higher School of Management", Financial University.

DISCUSSION TOPICS:

1. Organizational and managerial challenges in achieving the efficiency of the system of state and municipal management in the context of digital transformation.
2. Can digital platforms become an impetus for transforming the economy and the social sphere?
3. Digitalization of state governance and the social sphere: problems of using state information systems.
4. Will digitalization lead to the creation of more complex bureaucratic barriers?

SPEAKERS:

Olga V. Arashkevich, Associate Professor of the Department of Economics and Management, F. Skorina Gomel State University (Republic of Belarus);

PANEL DISCUSSION:

"FINANCIAL COMPASS OF RUSSIA: HOW ACCOUNTING, ANALYSIS, AUDIT, AND TAXES LEAD TO ECONOMIC SOVEREIGNTY"

November 26, 2025

02.00 PM – 04.00 PM

Moscow, Verkhnyaya Maslovka Street, 15, Assembly Hall

CONFERENCE OVERVIEW:

Systemic convergence of accounting, analytical, auditing, and tax practices is a foundation for making informed managerial decisions. The transition from retrospective accounting, analysis, and control to a strategically oriented approach can serve as a reliable navigational tool for businesses and the government.

A key aspect of the panel discussion will be the exploration of a new architecture for accounting, analytical, tax, and control systems that addresses contemporary challenges and ensures both transparency and strategic flexibility.

Dialogue on the future trajectory and systemic convergence of these systems is essential for developing a roadmap for transforming the country's financial mechanisms.

MODERATOR:

Omsk, Partizanskaya Street, 6

CONFERENCE OVERVIEW:

Innovation and tradition should not be strictly opposed. These concepts are related and influence each other. Innovations constantly change established traditions and, over time, develop new traditions and a new style of human behavior. Innovation dynamically transforms traditions, giving them new forms and new life. To achieve sustainable regional development, a reasonable balance between tradition and innovation is necessary.
